Music in College Information Session

THREE EXPERIENCED COLLEGE ADMISSIONS OFFICERS share information about how to leverage your music interest and experience when applying to college. Whether you want to major in music, minor, or simply play in college, you'll hear everything you need to know to successfully identify and apply to programs that are right for you. Presenters have collective experience at Eastman, Michigan, BU, Carnegie Mellon, and Longy School of Music.

PROGRAM:

- Types of schools/programs/degrees
- Double degrees, minors, and non-music majors with musical interests
- Planning, organizing and applying (how it works when there is an audition for admission, and how it works when there isn't)
- Brief overview of financial aid (merit vs need and institutional differences)
- Career paths
- Q&A
